

NVHC 43 & NVHC 43/2 Hurricane Clip

- 18" gauge galvanized steel.
- Between framing members no blocking is required.
- Lateral movement of truss parallel and perpendicular to the wall as well as uplift will be resisted by this clip.

Product Code	Description	Fasteners		Design Loads (lbs.) Each Clip		
		Header	Joist	Uplift	L1	L2
NVHC 43	Hurricane Clip - Wide	9-10d	9-10d	687 per clip	407	308
NVHC 43/2	Hurricane Clip - Wide x 2	10-10d	10-10d	917	547	432

- Notes:
- 1) All specified fasteners should be used on each of the connected members to achieve values indicated on the above schedule.
 - 2) See General Notes, page 01.
 - 3) This table is based on Florida Approval 16294-R2, Table 15, and Miami-Dade NOA 15-0507.02.
 - 4) For uplift, use two clips, one on each side to comply with section 2321.7 of FBC.
